PROJECT EXPERIENCE

Rewards — A rewards calculator

- Built a data set of customers and orders for a 3 month period
- Asynchronously fetched customer and transaction data
- Developed logic to calculate customer earned points by month and the running total
- Designed and displayed cards with customer, order and point data.

Zaxcode.dev — My Portfolio Site

- Integrated Ghost blog posts and data with my React Gatsby Portfolio
- Developed a like button with persistence for individual user
- Created a search input that filters blog posts
- Implemented dark and light mode options that initially load off user mode system preference.
